DETAILED ACTION

Amendments

1. Preliminary Amendment filed concurrently with the present application had cancelled claims 1-14 and 21-28, had amended claims 15-20, and had added new claims 29-42. Thus, claims 15-20 and 29-42 are pending in the instant application.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species of the claimed invention:

Specie I, claims: 17, 18, 29-33, 38, 39, and 42, as depicted on Fig. 1, 2, 3, and 6 (fuse element is a conductive metal strip having weak spots); and,

Specie II, claims 19, 34-36, 40, and 41, as depicted on Fig. 4 and 5 (fuse element comprising a fuse wire and a flat nonconductive bridge).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 15, 16, 20, and 37 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a). Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
